HOMEOPATHY  ESSENTIALS

CACTUS IN NATURE

The name cactus is derived from the Greek word 'kaktos', which means 'spiky plant'.

Nearly with 2.000 species

Environment

Most cacti grow in the ground, however there are also species, which grow on the surfaces of other organisms and glean nutrition from their immediate surroundings.

Cactuses have extremely long roots to reach out through the sandy, rocky soil. These roots grow close to the surface, collecting as much water as possible. A large saguaro may have root systems that are 15 meters long.

The structure of cactuses enables them to survive in hot, dry climates.

Most have thick, fleshy stems with a waxy skin surface.

The stem acts as a reservoir to store water.

The tough skin keeps the water from evaporating. In addition, surfaces of most cactuses can expand and contract to accommodate changes in the amount of water.

Survivals

PLANT

Cactus doesn't produce typical leaves, they may be completely absent, reduced or modified into scale or spine structures to lessen water loss. Spines grow on the stem.

Cacti can be distinguished from succulent plants, (water storage tissue plants), by their areole structures.

Areoles are modified branches, from which flowers, more branches, and leaves may grow.

Cactus spines keep the plant from being eaten by most animals.

Cactus spines can be short, long, soft or sharp depending on the species.

Spines can be straight or have hooked tips.

All cactuses produce flowers.

For most cactuses, flowers are short-lived; the bloom lasts only a few days. Some flowers open only at night.

In a few species, the bloom opens for a day or less before withering and falling off.

The short blooming period of cactuses lessens the amount of water that evaporates through their soft petals.

FLOWER

REPRODUCTION

All cacti reproduce.

Their flowers have both male and female parts, using birds, bats and insects to do pollination.

From the fertilized egg a fruit develops.

This cactus fruit is a fleshy berry that contains black or brown seeds. Cactus seeds are scattered by birds, wind, and rain. A cactus plant may produce about million seeds during its life, but only one or two seeds live long enough to produce a new cactus.

VALUE

Cactuses are important to animals and people.

- Small animals, insects, and birds feed on their stems and flowers. Birds build nests in cactus stems.

- Some woodpeckers make their homes in the larger species.

- And both birds and animals hide and seek refuge from predators in the stems of cactus plants.

Cacti are also a food source for people.

Once the spines have been scraped off, prickly pear stems can be fried and eaten.

Many people eat cactus fruits or grind the seeds into a meal for cakes. Some cactuses are important in the production of a red food dye. And other cactuses, once cut and dried have been used as building material.

CACTACEAE IN HOMEOPATHY

HOMEOPATHY  ESSENTIALS

Roberto Petrucci - Viktória Németh

CONSTRICTION

On physical level they feel constriction, congestion or tightness and chocking

- head
- chest
- throat

CONSTRICTION

On mental level constriction is also there

- they want to live their life but the life constricts them. They cannot be themselves, they cannot enjoy life because the availabilities are constricted (delusion)
- they think that if they let themselves to have pleasure in their life they will suffer

PLEASURE

They want to deny of pleasure especially in their relationships.

- they appear as an emotionally dry people and also they are creating an emotinal “desert” around them
- introverted
- irritability
- silent and morose
- avoid company and avoid to talk

SUFFERENCE

Avoiding all sufference

- mentally
- physically

They know if the will suffer from pain, it is the death to them. It is giant and also can be mortal.

INDEPENDENCE

They appear as a morose, dry person, but the reason is that if they will attach to someone or something too much, they will suffer and they will be hurt

They want to keep distance with everyone and everything (no relationship, no kids, no dogs, no memories, nothing)

HYPOCHONDRIA

They are very hypochondrical persons

They are sure about their sickness, severe sickness or even incurable sickness

They do not have time to waste with different doctors and treatments they want a drug immediately that helps

Generally they do not believe in doctors, in medical science, they believe just in drugs

HYPOCHONDRIA

They are always thinking they are incurable and have a huge fear of suffering and pain during illness

They are taking tons of drugs just to avoid pain

CONTROL

They have to control always their mind, because easily they can be mad by all their fearful thoughts

They are not controlling their emotions

Can be hysterical (screaming, shrieking, shouting), cheerful, fearless (at their first phase)

CARDIOVASCULAR

- constriction around the chest
- oppression at heart region
- sensation as if chest would be tight
- palpitations
- cardiovascular complaints

STITCHING PAIN

- piercing pain
- as if pain pierces from side to side
- a sword caused like pain

TIME

They are running against of time, feel that they have not enough

Altered perception of time

have difficulties to place themselves in a temporal space (time, hour, day)

SEXUALITY

want to avoid the physical contact, but have a huge sexual desire

- dreams
- erotic dreams
- fantasies
- erotic thoughts

DREAMS

- animals
- falling
- damaged houses

All the dreams are scary

- Cactus patients are rigidly seeking for surviving and they know that if they will do just one tiny mistake, they will die
- They are aware of being a big survival, but there is a constant fear of being ill or die
- They do not want to waste energy and time in waiting and doing nothing

- 
- **Tightness and constriction**
 - **Avoidance of mental and physical sufferings**
 - **Denial of pleasure**
 - **Narcissism, independence with desertification of relationships**
 - **Hypochondria (searching for drugs not for doctors)**
 - **Control: mind not emotions**
 - **Cardiovascular complaints**
 - **Stitching pains**

CARNEGIEA GIGANTEA

SAGUARO OR GIANT CACTUS

carneg-g. (Synthesis Adonis 179)

GROUP: CACTACEAE

CARNEGIEA GIGANTEA

- Contraction and constriction
- Sensation of invasion, violation, people intruding into his life and home
- Sensation of threat from the upper left corner
- Sensation that friends are turning into something dark and sinister
- Indifference, feeling of numbness, towards everything and everyone (second phase)
- Eating disorders, especially bulimia
- Dermatological complaints (especially itching) due to emotional tension
- Cardiovascular complaints

ANHALONIUM LEWINII

PEYOTE

anh. (Synthesis Adonis 609)

GROUPS: CACTACEAE - DRUGS - DESERT REMEDIES

ANHALONIUM LEWINII

- Workaholic: pursuit of productive work with the desire to do it better and better and to involve others in his own work (first phase) followed by chronic fatigue syndrome (second phase)
- Introspection with interest in meditation and spiritual themes
- Depersonalization and dissociation from the environment (second phase)
- Audio-visual hallucinations: wonderful, colorful visions synchronized with music (second stage)
- Gradual changes until complete reversal of sleep-wake rhythm
- Painlessness of complaints usually painful
- Warmblooded (first phase) or chilly (second phase)
- Neurological complaints

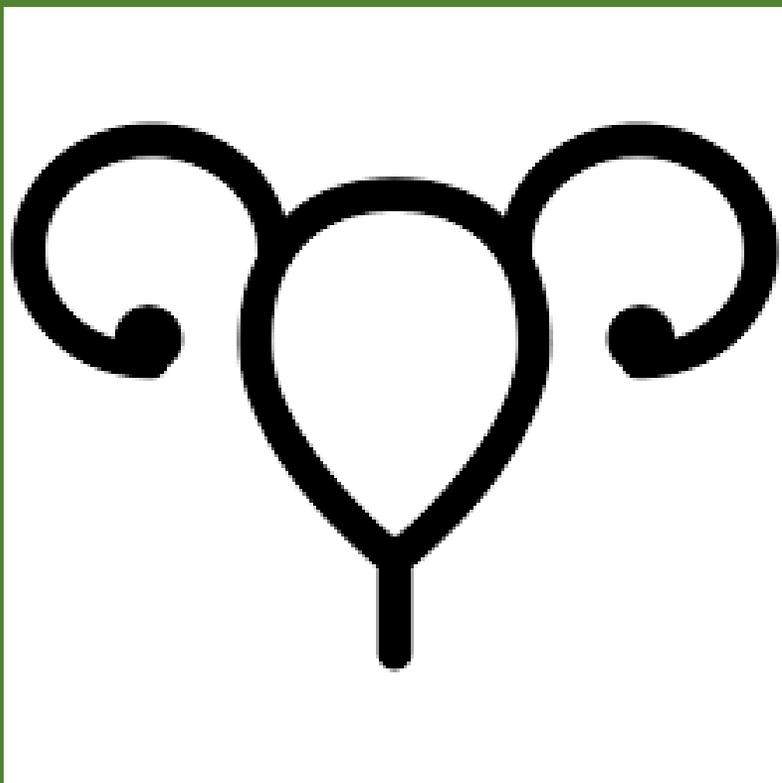

WOMAN

39 years old

DYSMENORRHEA - HEADACHE - FIBROMYALGIA

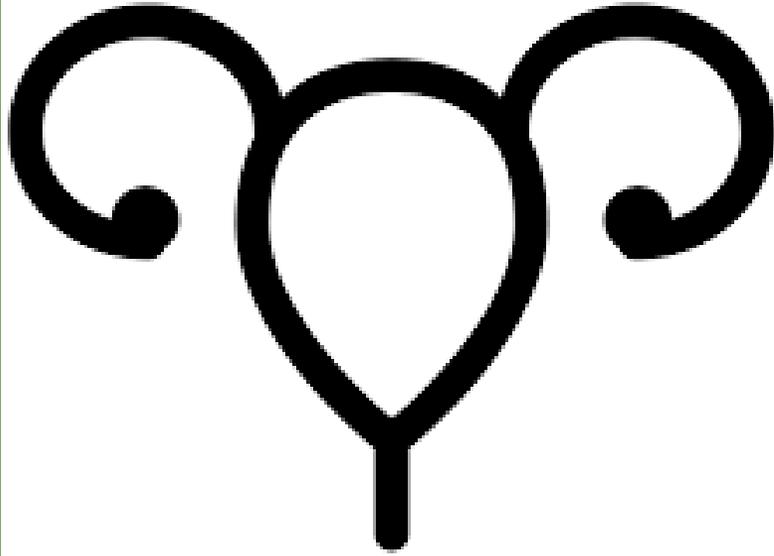

first consultation May 2012

The main problem is related to my menses and at this point I can't wait to be in menopause but it is a distant hope because all the women in my family, my mother, my aunts and my grandmothers all went through menopause between the ages of 53 and 56

MENSES

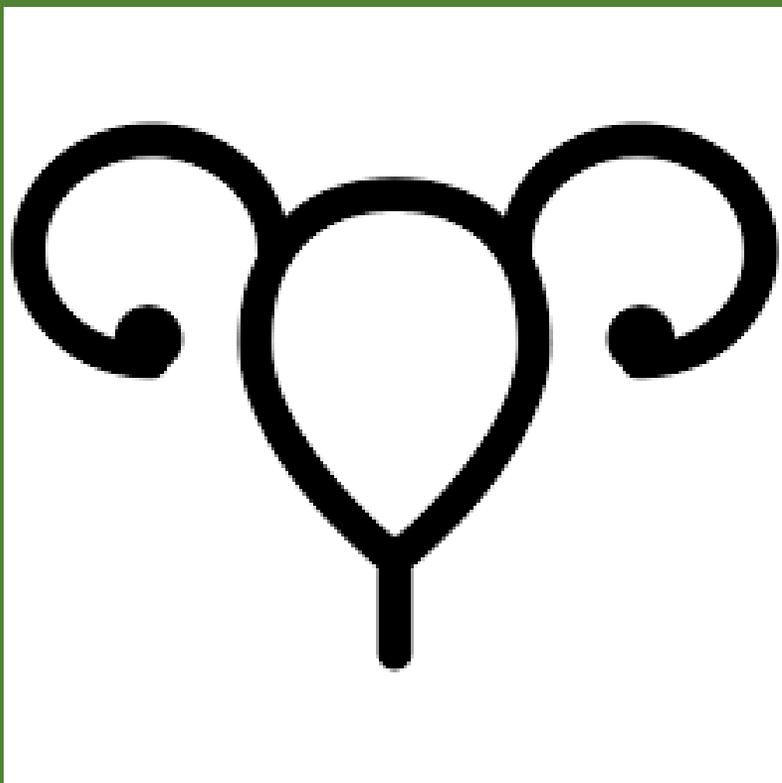

HOMEOPATHY  ESSENTIALS

- I had my first menses when I was 11 years old and since then, every month but every month I have my 3 days of despair
- I have always suffered from very bad pain, I cry for 3 days and nothing makes me feel better; if I take pain killers I feel better for 2 hours then the pain returns even worse than before

MENSES

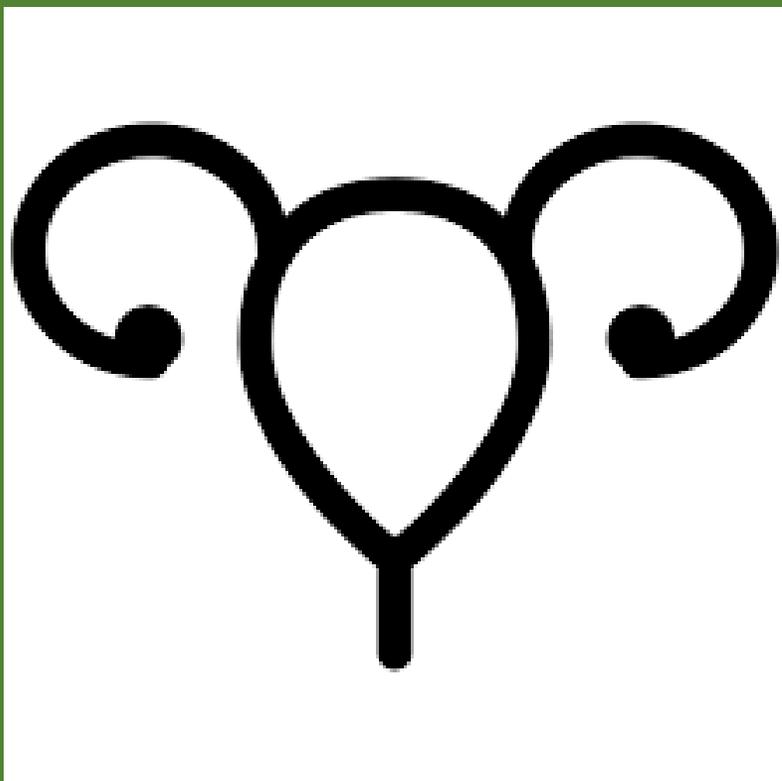

HOMEOPATHY  **ESSENTIALS**

I feel like my uterus is in a cage, I feel something squeezing it, a cramp, it's terrible...

MENSES

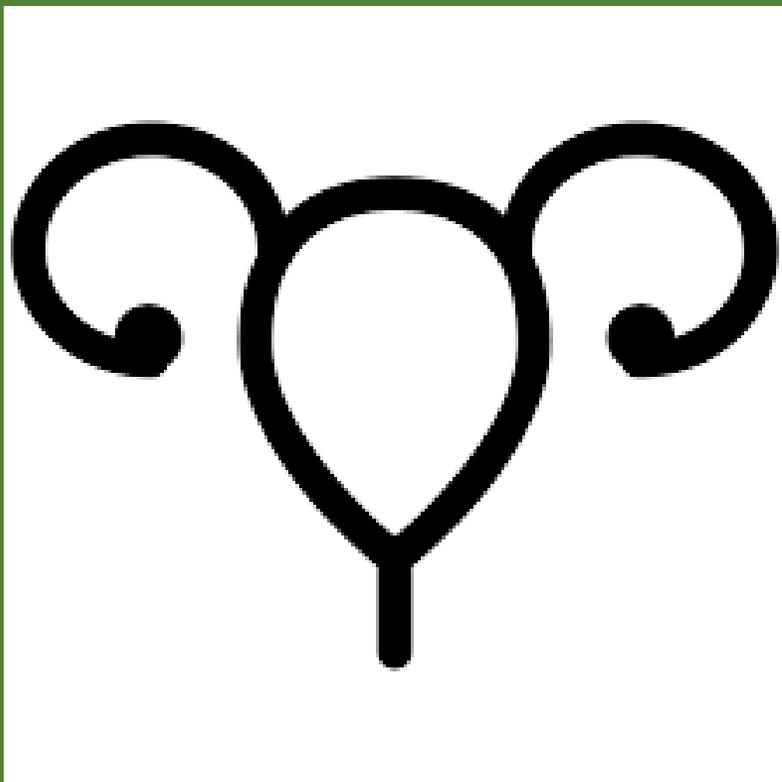

HOMEOPATHY  ESSENTIALS

And every time I feel as caged as my uterus, I seem to become a frothing tiger; I get irritable, impatient, hysterical; at work my colleagues stay away from me on those days, they know I fight to survive and I could kill...

MENSES

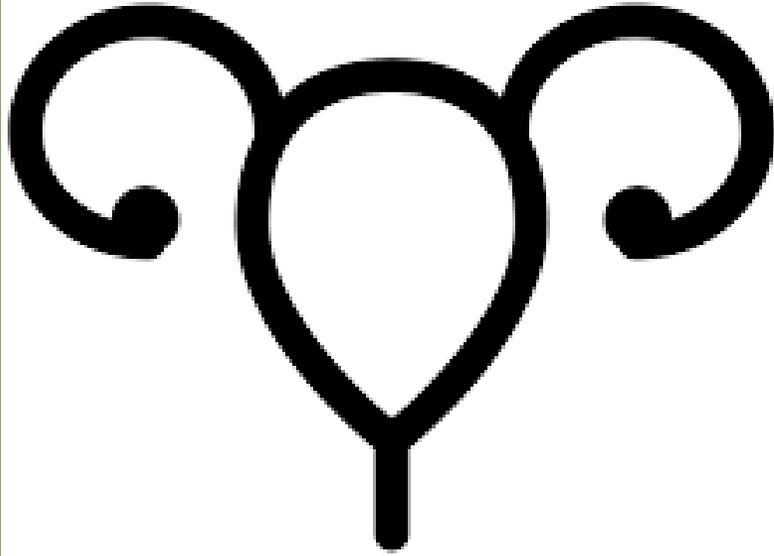

HOMEOPATHY  ESSENTIALS

Luckily I can sleep because
I never have a flow at night

MENSES

HOMEOPATHY  ESSENTIALS

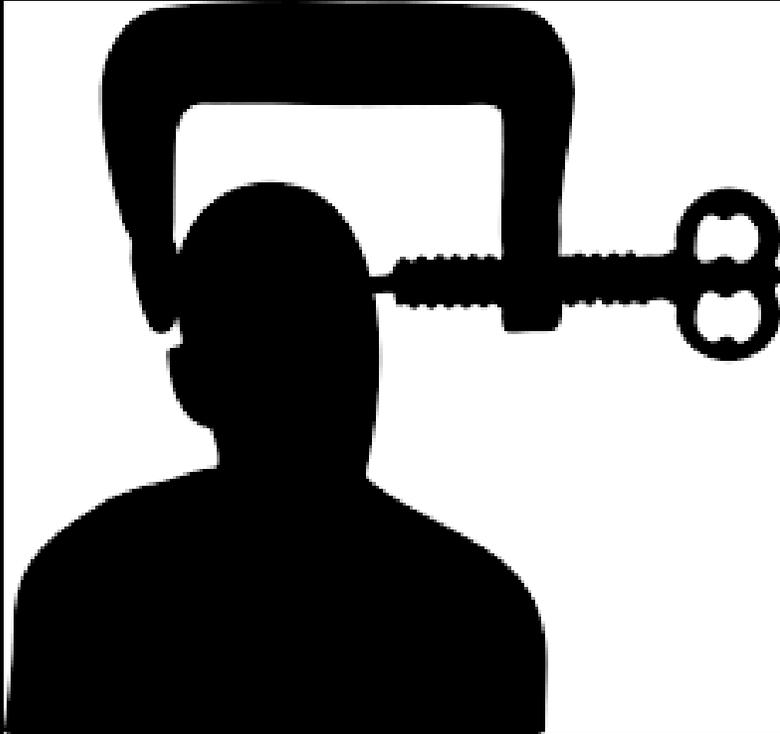

- I ask you to tell me more about the menses
- I can repeat what I said before, the pain is terrible, I cry for 3 days
- The blood is dark, for 2 days almost black, and I have a lot of clots

MENSES

HOMEOPATHY

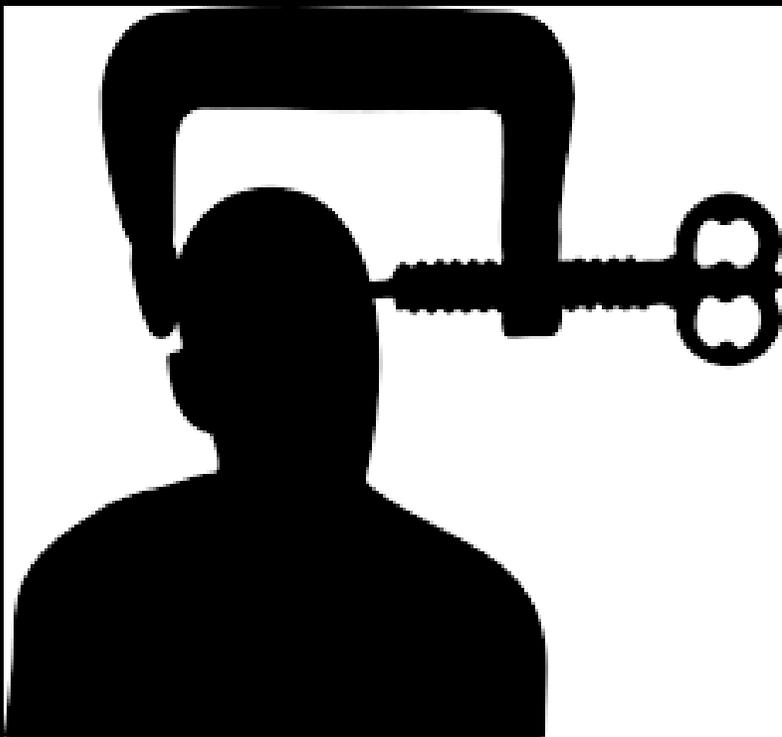

ESSENTIALS

- And I wish it had ended there...
- The first day everything happens, especially headaches, a vice around the head and I feel it full, as if it was about to burst...

MENSES

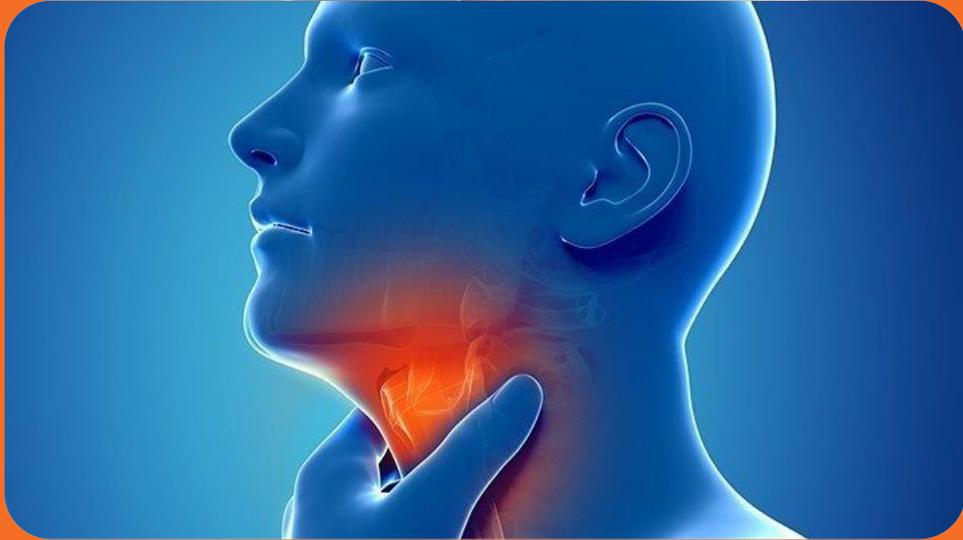

HOMEOPATHY  ESSENTIALS

- **Are there any other characteristics related to headaches?**
- **Yes, one more thing, when I have a headache my face is on fire, hot and red!**

MENSES

HOMEOPATHY  **ESSENTIALS**

- And every month, in winter, I get a sore throat during my period.
- For all these ailments I can't wait to go through the menopause

MENSES

HOMEOPATHY  **ESSENTIALS**

- Have you ever taken the pill?
- Yes I took it for a few months to try to have less pain but the improvement was minimal
- I took it in my twenties and then again about ten years ago but I had to stop both times

PILL

HOMEOPATHY

ESSENTIALS

- Why did you have to stop?
- Doctor promise me that you won't do like my gynecologist who told me I'm crazy...
- He says it's not possible that I have this disorder from the pill, that it's a coincidence... but how can it be a coincidence ? I know very well that it's not a coincidence...

PILL

HOMEOPATHY

ESSENTIALS

- And what complaint did you have?
- I've never had a nosebleed in my life, but both times I took the pill... the tap opened....

PILL

HOMEOPATHY  ESSENTIALS

- Let's talk about fibromyalgia
- What should I tell you? I started having the first symptoms about 10 years ago... because of that damn man... I started having back pain and slowly the pains got bigger and bigger and now I have pain everywhere, but especially here (points to both deltoids)

FIBROMYALGIA

HOMEOPATHY

ESSENTIALS

The rheumatologist says it has nothing to do with fibromyalgia, but I often have cramps in the sole of my foot

FIBROMYALGIA

HOMEOPATHY  ESSENTIALS

- Who is the damn man ?
- My ex-boyfriend! We were preparing the wedding and one day he told me that he was not ready!
- That's when my fibromyalgia started, I'm sure

DISAPPOINTED LOVE

HOMEOPATHY  ESSENTIALS

- How did I react?
- I locked myself in the house and since then my life is over, there is nothing, total desert... since then I don't give myself anything... and I don't want to think any more, neither of men nor of women, I can't suffer any more...

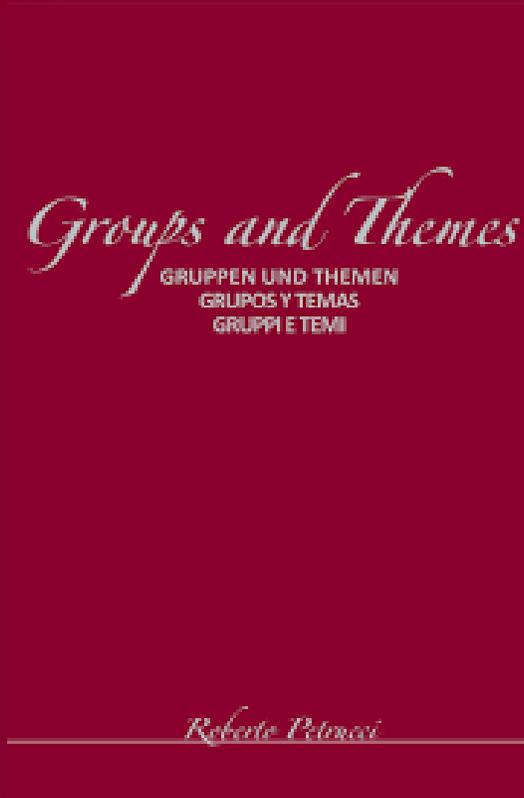

DISAPPOINTED LOVE

HOMEOPATHY  ESSENTIALS

I feel I have gathered enough information
so I decide to prescribe

PRESCRIPTION

HOMEOPATHY  **ESSENTIALS**

If I had written the book earlier it would have been easier....

- Avoidance of mental and physical suffering
- Denial of pleasure
- Narcissism, independence with desertification of relationships

IMPORTANCE OF THEMES

HOMEOPATHY  **ESSENTIALS**

XMK (10.000K)

3 drops 2 times a day + if needed
(3 drops if needed during menses)

JULY 2012

I got my period about 15 days after starting the homeopathic therapy and immediately saw an improvement but I had to take the remedy very often in the first 2 days, at least every 2 hours

Blood is less dark and there are fewer clots

JULY 2012

The headache came the same as before, it did not change, still strong...

JULY 2012

As far as fibromyalgia is concerned, I started a couple of weeks ago to feel a slight improvement, my arms are less heavy, I feel better, let's say 10%

XMK (10.000K)

5 drops 3 times a day for 3 days then
5 drops 2 times a day + if needed
(5 drops if needed during menses)

NOVEMBER 2012

The menstrual pains are much better, I would say 70%, but I still have to take the remedy often, every 2 hours for the first 2 days

Since October I have increased to 7 drops, as you advised me by phone, but nothing has changed

Blood is now bright red and there are few clots

NOVEMBER 2012

The headache has changed; I get them all the time, every period, but it is no more so intense, I no longer feel the vice, it is much more bearable, but it is the fibromyalgia that I am out of mind about!

It's at least a month now that the pain is gone, I feel like I've been reborn!

XMK (10.000K)

8 drops 2 times a day + if needed
(8 drops if needed during menses)

FOLLOW UP 2012 – 2022

Over the years, she has also taken other potencies (200K - LMK - CMK) as required.

Dysmenorrhea has remained at an acceptable level (> 80% compared to before homeopathic therapy)

Menses-related symptoms (headache and sore throat) have all disappeared

FOLLOW UP 2012 – 2022

Fibromyalgia was very good until 2017 then for about 1 year it returned after a new love disappointment.

In 2014 she reopened her heart and fell in love again but after 3 years the relationship broke up and she suffered a lot.

FOLLOW UP 2012 – 2022

**At that time she had to take different potencies and CMK was the most effective
Since 2018 she has had no more fibromyalgia-related symptoms**

All remedies

CACTUS GRANDIFLORUS

QUEEN OF THE NIGHT

cact. (Synthesis Adonis 1960)

GROUP: CACTACEAE

CACTUS GRANDIFLORUS

- Contraction and constriction (heart, chest, abdomen, bladder, rectum, vagina, uterus, whole body)
- Hypochondriasis: seeking medication not doctors (first phase)
- Anguish about one's illness with desire to show it: brooding about one's future but no desire for consolation
- Need for control by avoiding deep contacts and feelings (desertification of relationships)
- Denial of pleasure with minimal use of energy, only the essential to survive (second phase)
- Periodicity: complaints return at the same time
- Cardiovascular complaints
- Stitching pains

MAN

52 years old

PRINZMETAL ANGINA

first consultation February 2018

- Prinzmetal angina or variant angina is a form of angina pectoris secondary to the spasm of the epicardial coronary arteries
- Symptoms include angina at rest and rarely under exertion
- Diagnosis is made by ECG and provocation test with ergonovine or acetylcholine

ANGINA

HOMEOPATHY

ESSENTIALS

- Many patients also have significant fixed stenosis of at least one major coronary artery
- Patients with mild or no fixed obstructions have better long-term results than patients with associated severe fixed obstructions

ANGINA

HOMEOPATHY  **ESSENTIALS**

- Symptoms consist of angina pain occurring mainly at rest, often at night, and only rarely and inconstantly during exertion (except in cases where there is also significant coronary stenosis)
- Attacks tend to occur regularly at certain times of the day

ANGINA

HOMEOPATHY  **ESSENTIALS**

Diagnosis variant angina

- Provocative test with ergonovine or acetylcholine during angiography
- Prinzmetal angina is suspected if there is ST-segment elevation during the attack. Between angina attacks the ECG may be normal or present a stable picture of alteration
- Confirmation is by provocative testing with ergonovine or acetylcholine, which can trigger a coronary spasm. Coronary spasm is identified by detecting a significant ST elevation on the ECG or by the observation of a reversible spasm during cardiac catheterisation

ANGINA

HOMEOPATHY  **ESSENTIALS**

Treatment of variant angina

- Calcium channel blockers
- Sublingual nitroglycerin

ANGINA

HOMEOPATHY  **ESSENTIALS**

- The average 5-year survival ranges from 89 to 97%, but the mortality risk is higher for patients with variant angina and atherosclerotic coronary stenosis
- The risk increases with increasing degree of obstruction

ANGINA

HOMEOPATHY  **ESSENTIALS**

- Usually, sublingual nitroglycerin readily relieves variant angina
- Calcium channel blockers can effectively prevent symptoms

ANGINA

HOMEOPATHY  **ESSENTIALS**

- My symptoms started about 3 years ago
- At first they were sporadic, occurring every 3 to 4 weeks; I was waking up at night with a hand squeezing my heart
- I don't trust doctors at all and it was several months before I went to see a doctor

ANGINA

HOMEOPATHY

ESSENTIALS

- I consulted my family doctor who immediately sent me to a cardiologist
- He advised me to go to hospital but the nearest hospital is 30 km. from my home so I looked for a 'normal' cardiologist...

ANGINA

HOMEOPATHY

ESSENTIALS

- He told me I suffer from angina pectoris and prescribed medication to take whenever I had the problem
- I felt reassured, I had a medication that could solve the problem whenever I had it....

ANGINA

HOMEOPATHY  **ESSENTIALS**

But the seizures became more frequent so I decided to go to the hospital...

ANGINA

HOMEOPATHY  **ESSENTIALS**

- At the hospital they had me do other tests including a coronarography
- They said I had a stenosis of a coronary artery and did an angioplasty

ANGINA

HOMEOPATHY  **ESSENTIALS**

- The symptoms did not go away and I got very angry about it !!!
- I went back to the hospital but they told me that the problem had been solved and that now my symptoms were just the result of my hypochondria...

ANGINA

HOMEOPATHY

ESSENTIALS

- I got much more angry!
- Ever since I was a boy, they've been telling me I'm a hypochondriac!!! I'm fed up!
- My symptoms were real, not the result of anxiety!
- I thought I couldn't trust doctors anymore...

ANGINA

HOMEOPATHY

ESSENTIALS

For a while I decided I didn't want to see a cardiologist again

ANGINA

HOMEOPATHY  **ESSENTIALS**

Only the intensification of the frequency of symptoms prompted me to look for another solution so I decided to go to Rome (the patient lives in the Tuscan countryside)

ANGINA

HOMEOPATHY

ESSENTIALS

- The cardiologist who examined me told me that he wanted to hospitalize me
- At first I immediately said no, then he explained that I had to do an examination and it would be easier and quicker to do it in hospital
- He was quite confident so I agreed

ANGINA

HOMEOPATHY

ESSENTIALS

- He finally diagnosed me with this variant angina and gave me a therapy, but although I changed the medication 3 times, every now and then the pain still comes back and then I have a lot of side effects
- Since I have been taking these drugs I often have headaches, before I never suffered from them....

ANGINA

HOMEOPATHY  **ESSENTIALS**

The headache is in my forehead, on the left side, like a nail, a big pin, something going into my brain....

SIDE EFFECTS

HOMEOPATHY  ESSENTIALS

**SIDE
EFFECTS**

Then I have a continuous feeling of dizziness and unbearable drowsiness, I keep yawning!!!

SIDE EFFECTS

HOMEOPATHY  ESSENTIALS

I often have back pain; I started suffering from it about ten years ago... but more than a pain, it's as if my back no longer supports me at the lumbar level...

**OTHER PHYSICAL
COMPLAINTS**

HOMEOPATHY  **ESSENTIALS**

THERAPY

- Verapamil extended-release 240 x 2
- Carvasin ([Isosorbide Dinitrate](#)) as needed

THERAPY

HOMEOPATHY

ESSENTIALS

MIND

HOMEOPATHY 

I have always been an active person!
I run a farm and I never stop... but
sometimes my back pain reminds me
that I am no longer 20 years old

BUSY

HOMEOPATHY  **ESSENTIALS**

Actually I have only been a farmer for a few years, I am more of an organizer and have set up a real company, I take care of the commercial side and manage my employees

BUSY

HOMEOPATHY  **ESSENTIALS**

I ask about his relationship with employees and others in general

RELATIONSHIPS

HOMEOPATHY  **ESSENTIALS**

I cannot say that I am a truly social person....

RELATIONSHIPS

HOMEOPATHY  **ESSENTIALS**

I don't like contact with others much, I am a loner...

RELATIONSHIPS

HOMEOPATHY  **ESSENTIALS**

My ex-wife used to say that I was an 'arid avaricious narcissistic hypochondriac' who only thought about money and work, earning money and never enjoying life... and then also that I never went to bed but I work well especially at night...

RELATIONSHIPS

HOMEOPATHY  ESSENTIALS

In fact, she always exaggerated, of course I'm not all hugs and kisses, but neither am I the way she described me, and in fact as soon as they found this illness I immediately told her: 'now you won't say I'm a hypochondriac...'

RELATIONSHIPS

HOMEOPATHY  ESSENTIALS

It is not true that I am arid, I certainly struggle to express my feelings and I am sometimes a bit rude but do you know how many times I think and rethink about how I have behaved with others?
how many times I think "maybe I have offended him... I should have been less direct..."

RELATIONSHIPS

HOMEOPATHY  **ESSENTIALS**

But that's how I am, others see me as closed in on myself, selfish... but I'm not selfish, I'm just closed in on myself (at that moment he makes a hand-clasping gesture)

CONTRACTION

HOMEOPATHY  **ESSENTIALS**

I too have my emotions and worries
but I always try to control them....

CONTROL

HOMEOPATHY  **ESSENTIALS**

I ask if he has recurring dreams

DREAMS

HOMEOPATHY  **ESSENTIALS**

Ever since I was a child I have often had the same dream

DREAMS

HOMEOPATHY  **ESSENTIALS**

I have what they call perhaps the imaginary friend... I say imaginary friend because in the dream nobody sees this person

DREAMS

HOMEOPATHY  **ESSENTIALS**

At my side there is a kind of magician who always tells me what to do and even when I tell him I want to do something else he makes me do what he wants....

DREAMS

HOMEOPATHY

ESSENTIALS

I ask about his feelings
in this dream

DREAMS

HOMEOPATHY  **ESSENTIALS**

It is difficult to answer...
What is strange is that the
dream seems to last for months

DREAMS

HOMEOPATHY  ESSENTIALS

I ask about his relationship with time and he tells me that for him time never passes, even when he has a lot of things to do, evening never comes...

TIME

HOMEOPATHY  ESSENTIALS

MK (1.000K)

3 drops 2 times a day + if needed

(3 drops every minute for 3 times in case of acute symptoms)

APRIL 2018

He came to see me after about 2 months and I asked why he did not update me as agreed after 3 weeks. 'I had nothing to say to you, I was fine, I no longer had headaches, the dizziness went away and I felt better, I no longer feel drowsy or yawn, in short, your remedy made all the side effects of the drug disappear.

APRIL 2018

I ask if he has ever needed to take the extra remedy, if he has ever had angina symptoms, and he tells me that this has never happened again and he has never taken Carvasin

APRIL 2018

The back is also much better

MK (1.000K)

3 drops 2 times a day + if needed

(3 drops every minute for 3 times in case of acute symptoms)

SEPTEMBER 2018

He hasn't called or sent any updates since April.

He has been fine and has never had any more complaints.

I recommend seeing the cardiologist again to assess the therapy.

MK (1.000K)

3 drops 2 times a day + if needed

(3 drops every minute for 3 times in case of acute symptoms)

HOMEOPATHY

ESSENTIALS

OCTOBER 2018 (TEL)

He spoke with the cardiologist who was astonished and surprised about the effect of the homeopathic therapy even though he told the patient that he was never against alternative therapies.

He decided to reduce the Verapamil to 240 mg/day

APRIL 2019

He was fine, no cardiac complaints.

In January, after an exertion for a move, he had acute low back pain and took allopathic drugs.

I explained the rationale for homeopathic therapy again, asking him to call in case of acute situations.

MK (1.000K)

3 drops 1 time a day + if needed

(3 drops every minute for 3 times in case of acute symptoms)

SEPTEMBER 2019

He was fine, no cardiac complaints.

He tells me: "I am very happy with the remedy you gave me and I wanted to hear back from the cardiologist who decided to reduce the medication to 120 mg/day".

MK (1.000K)

3 drops 1 time a day + if needed

(3 drops every minute for 3 times in case of acute symptoms)

11 DECEMBER 2019 - TEL

Since yesterday severe back pain.

No particular modalities, the pain is continuous and is described as a blade that reaches the belly

11 DECEMBER 2019 - TEL

MK 3 drops every hour; if not better from afternoon 5 drops every hour

12 DECEMBER 2019 - TEL

No change for back pain

12 DECEMBER 2019 - TEL

XMK 3 drops every hour; if not better increase 1 drop every 2 hours

13 DECEMBER 2019 - TEL

Marked improvement in back pain when switching to 6 drops (> 80% compared to yesterday)

13 DECEMBER 2019 - TEL

XMK 6 drops every 2 hours reducing 1 hour every day to 6 drops 1 time a day

DECEMBER 2020

He calls me in November (11 months after the back pain episode) and tells me he would like to come for a consultation even though he has been fine since then

DECEMBER 2020

At the consultation he tells me that he has been very happy with the homeopathic therapy but now he has to decide, either the drug or the homeopathic remedy.

I explain that there is a good synergy and I am very happy with the action of the remedy and recommend to talk to the cardiologist to see how to continue with the allopathic therapy.

XMK (10.000K)

6 drops 1 time a day + if needed

JANUARY 2021 - TEL

The cardiologist is also satisfied with the synergy of the therapy and advises to continue in the same way but the patient tells the cardiologist that he has to make a choice, either the allopathic drug or the homeopathic remedy and the cardiologist advises not to stop the drug so he tells me that he will stop the homeopathic therapy

JANUARY 2021 - TEL

I try in every way to explain that in his case the two therapies can coexist but he says that he has decided and he must choose and he cannot think of living without the drug...

Then at a certain point in the phone call he says to me: "you know, I am very religious, perhaps we have never spoken about it... God will take care of it and he will do what must be done... and if God is busy I will ask my imaginary friend, do you remember?"

FEBRUARY 2022

I see a lady for a consultation and she tells me she got my name from her brother who was my patient; I honestly tell her that I don't remember that surname so I go to check the file and find out who he is.

I ask about the patient and the sister tells me that the brother is doing well and no longer has heart problems
