CHLORINE in Nature

**molecule**

HOMEOPATHY

ESSENTIALS

**molecule**

# The Invisible Reactive Cleansing Soul

## Atomic Structure

Chlorine has an atomic number of 17, which means it has 17 electrons arranged in energy levels around the nucleus.

Understanding the electron configuration of chlorine is crucial in modern quantum chemistry for predicting its chemical behavior and reactivity.

# Isotopes

Chlorine has two stable isotopes, chlorine-35 (about 75%) and chlorine-37 (about 25%).

These isotopes have different numbers of neutrons, making them useful in various applications, such as radiotracer studies in modern medicine and environmental science.

## Human Body

Chlorine is an essential micronutrient for humans.

It plays a critical role in the body's digestive process as part of hydrochloric acid (HCl), which helps break down food in the stomach.

# Pharmaceuticals

Chlorine is a key component in the production of many pharmaceuticals.

It is used in the synthesis of antibiotics, analgesics, and other medications.

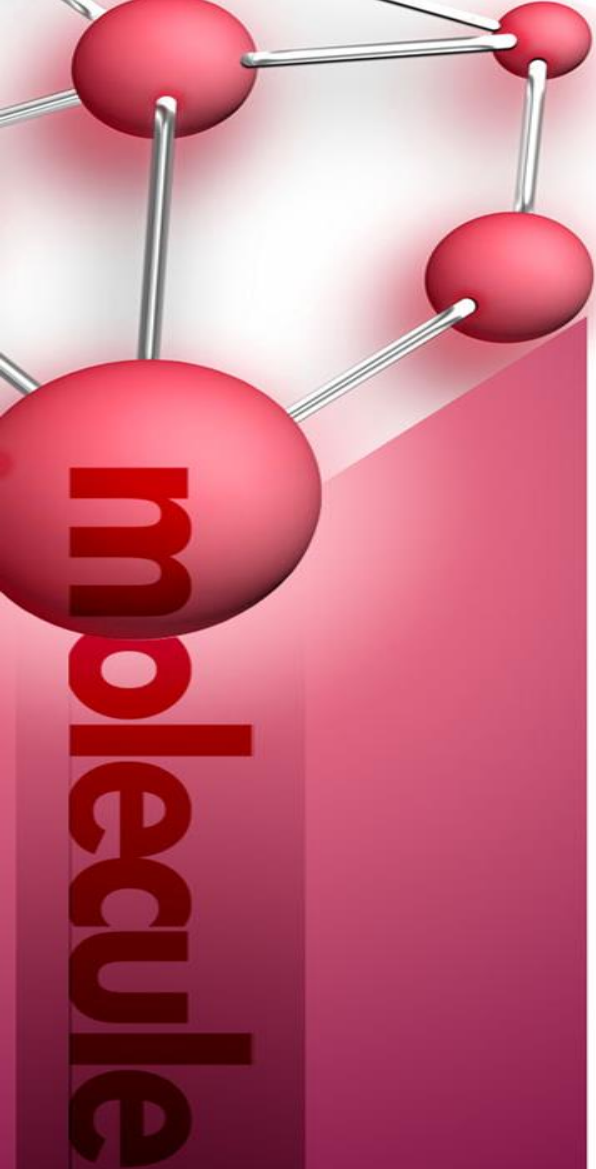

Modern medicine relies on chlorine chemistry for drug development.

## Electronics

Chlorine gas is used in the semiconductor industry to etch silicon wafers.

This process is crucial for the modern electronics industry, allowing the production of smaller and more powerful electronic devices.

# Green Element

Chlorine chemistry has evolved to include more environmentally friendly practices. Modern research focuses on developing cleaner and more sustainable methods for chlorine production and usage to reduce environmental impacts.

## Polymers

Chlorine is used in the production of various polymers, such as PVC (polyvinyl chloride).

PVC is a versatile and durable material used in everything from pipes to clothing.

Modern advancements in polymer chemistry continue to refine PVC's properties and reduce its environmental impact.

# Solar Energy

Chlorine-based compounds like cadmium telluride (CdTe) are used in modern solar cell technology.

CdTe solar cells are efficient and cost-effective, making them a significant player in the renewable energy sector.

## Water Treatment

Modern water treatment plants often use chlorine-based compounds like sodium hypochlorite (bleach) or chlorine dioxide to disinfect water.

These methods are highly effective at removing pathogens and ensuring safe drinking water.

# Space Exploration

Chlorine is of interest in space exploration due to its presence on other celestial bodies.

Scientists study chlorine compounds on Mars and other planets and moons to gain insights into the history and potential habitability of these celestial bodies.

## Green Chemistry

Modern chemistry emphasizes green and sustainable practices.

Researchers are exploring new ways to use chlorine in processes that generate less waste, consume less energy, and have a reduced environmental impact.

MURIATICUMS  
in  
Homeopathy

HOMEOPATHY

ESSENTIALS

# Vulnerability

# Vulnerability

Muriaticums often have a deep-seated fear of emotional vulnerability. They have experienced emotional wounds or betrayals in the past, leading to a heightened sensitivity to the potential for emotional pain.

This fear can make them emotionally guarded and cautious in their interactions with others. They have difficulties to open up, express their true feelings, or trust others easily.

To protect themselves from potential hurt, they avoid situations or relationships that they perceive as emotionally risky. This avoidance can lead to a limited and sheltered emotional life.

# Vulnerability

The fear of being hurt can hinder their ability to form deep and meaningful emotional connections with others. They keep people at a distance to minimize the risk of emotional pain.

They exhibit self-protective behaviors, such as emotional withdrawal or detachment, as a way to shield themselves from potential hurt. This can sometimes come across as emotional coldness.

Past experiences of hurt or betrayal lead to feelings of resentment and cynicism toward others. They struggle to trust that people have their best interests at heart.

# Vulnerability

Paradoxically, while they fear being hurt, there can also be a deep longing for emotional security and a desire for genuine, trusting relationships.

This internal conflict between their fear and their desire for emotional connection can be a source of emotional turmoil.

They seek closure or resolution in past emotional matters to find relief from the fear of being hurt.

Unresolved emotional issues can contribute to their ongoing anxiety.

# Hardness

HOMEOPATHY

ESSENTIALS

# Hardness

There is an emotional hardness or emotional defensiveness.

When hurt Muriaticums put up emotional barriers, becoming emotionally distant or even aloof.

This emotional hardness is a self-protective mechanism to shield themselves from further emotional pain.

When they experience emotional pain or feel wronged, they internalize their hurt deeply.

This emotional hurt can be a result of perceived betrayals, past emotional wounds, or unresolved conflicts.

# Hardness

They feel feelings of resentment towards those they believe have caused them harm. This resentment can be long-lasting and may remain over time. It can lead to a sense of bitterness and anger.

They can have a strong desire for revenge or a wish to see those they feel wronged by suffer in return. This desire for revenge is often a reaction to their deep emotional pain and resentment.

They find it challenging to forgive those who have hurt them. They hold grudges and believe that retribution is the only way to amend the wrong.

# Hardness

This characteristic reflects an inner conflict within them.

On one hand, they may want to protect themselves from further hurt, leading to emotional hardness.

On the other hand, they may feel a strong urge for revenge, creating inner turmoil.

The desire for revenge can sometimes be linked to a need for closure in unresolved emotional matters.

They may believe that only by seeking revenge can they find a sense of justice and resolution.

HOMEOPATHY

ESSENTIALS

# Disappointment

# Disappointment

Muriaticums often experience a deep and profound sense of disappointment. This disappointment can stem from various life experiences, such as unfulfilled expectations, losses, or perceived betrayals. It is not uncommon for them to feel let down by life itself.

This disappointment can become chronic, leading to a persistent sense of dissatisfaction with their circumstances and with life in general. They may struggle to find contentment or joy in their daily experiences.

Alongside disappointment, there is often a strong tendency towards self-pity. These focus on their own suffering and grievances, dwelling on their misfortunes and feeling sorry for themselves.

# Disappointment

Disappointment and self-pity can lead to a generally negative outlook on life. They may view the glass as half-empty and have difficulty seeing the positive aspects of their situation.

In response to their emotional state, they withdraw from social interactions and isolate themselves. They believe that others cannot understand or empathize with their pain, leading to a sense of emotional loneliness.

The chronic disappointment and self-pity can make it challenging for them to move forward in life. They may feel stuck in their negative emotions and struggle to make positive changes.

# Disappointment

Small disappointments or obstacles can feel overwhelming, leading to an intensified sense of self-pity.

They seek validation and empathy from others, hoping that sharing their feelings of disappointment and self-pity will bring comfort. They find it difficult to receive this consolation.

Beneath the self-pity, there is often a deep longing for compassion and understanding. They crave for someone who can truly empathize with their emotional pain.

# Disappointment

They want relief from their chronic disappointment and self-pity. While these emotions dominate their emotional landscape, they also desire healing and a path toward greater emotional well-being.

# Reserved

HOMEOPATHY

ESSENTIALS

# Reserved

Muriaticums often experience a profound sense of loneliness.

This loneliness can be emotional rather than just physical. They feel isolated and disconnected from others, even when they are in the company of people.

They tend to be reserved and introverted by nature. They find it challenging to express their thoughts, feelings, or needs openly, even to close friends and family members. Their reservedness can be a self-protective mechanism to guard against potential emotional hurt.

# Reserved

They have a strong inclination toward self-reliance. Instead of seeking help or support from others when they are struggling emotionally, they may prefer to handle their difficulties on their own.

There is often a desire for independence and autonomy. They resist becoming dependent on others for emotional or practical support, even when they are in need.

They are reluctant to burden others with their problems or emotions. They may believe that their issues are their own responsibility and should not trouble others.

# Asking for nothing

“Asking for nothing” underscores their reluctance to ask for help, comfort, or attention. They may keep their emotional struggles to themselves and rarely seek assistance, even when they desperately need it.

They tend to retreat into their inner world, finding solace in solitude and introspection. This inner world may be rich with thoughts and emotions that they keep hidden from the outside.

Their reservedness and aversion to ask for emotional support can make it challenging for them to form deep and meaningful connections with others.

## Reserved

Despite their self-sufficiency, they often longing for genuine emotional connections and understanding.

The loneliness they feel may be a source of emotional pain.

This emotional self-containment can lead to a sense of isolation and emotional detachment.

HOMEOPATHY

ESSENTIALS

# Empathy & Sympathy

# Empathy & Sympathy

Muriaticums have a deep sense of sympathy or empathy for others who are also experiencing emotional pain or grief.

They are particularly attuned to the suffering of others and offer comfort or support to those in similar situations.

While they may find it challenging to express their emotions openly, they have a deep sense of empathy.

They are highly sensitive to the emotional states of those around them, even if they don't readily share their own feelings.

# Empathy & Sympathy

There can be a sense of shared grief feeling in Muriaticums. They connect with others who have experienced similar losses or hardships and find solace in this shared understanding.

When they do engage in conversations, they are excellent listeners, offering a non-judgmental and empathetic ear to those who need to talk about their own emotional challenges.

# Metabolism

HOMEOPATHY

ESSENTIALS

## Metabolism and emaciation

Muriaticums have a metabolism that operates at a faster rate than average.

They often rapid thinning or wasting of the body, resulting in a skeletal appearance.

Usually they lose weight, particularly muscle mass and subcutaneous fat, at an accelerated pace.

## Metabolism and emaciation

They appear noticeably underweight, and their bones and joints may be more prominent due to the loss of muscle and fat tissue.

Emaciation can make them look frail and fragile.

They can experience a loss of appetite.

They may have difficulty eating or may simply not feel hungry.

# Metabolism and emaciation

This rapid metabolism and emaciation can sometimes be associated with emotional stress, grief, or inner turmoil that affects the body's ability to nourish itself properly.

HOMEOPATHY

ESSENTIALS

# Metabolism and emaciation

Emaciation can lead to physical weakness and a lack of stamina. They can feel fatigued and easily exhausted.

# MURIATICUMS

- Fear of being hurt (hard when hurt with resentment and revenge)
- Disappointment and self-pity
- Loneliness and reservedness; asking for nothing
- Empathy and sympathy
- Rapid metabolism and emaciation
- Headache and backache
- White and albuminous discharges
- Herpetic eruptions (aphthae as an alternative)

**WOMAN**

73 years old

**ASTHMA**

**HEADACHE**

**BACKACHE**

**RECURRENT HERPES**

first consultation June 1999

The first symptoms were evident before the patient started to speak

**APPEARANCE**

**HOMEOPATHY** 

She has a large herpetic eruption  
on the left side of the upper lip

**HERPES**

**HOMEOPATHY** 

- Are you often suffering from herpetic eruptions ?
- Since I was a girl I'm affected by herpes on the lips and aphthae in my mouth; every month I have problems
- If I do not have herpes I have aphthae but in the past I also had them in the same moment...

**HERPES  
APHTHAE**

**HOMEOPATHY** 

Another evident sign is the dandruff on her dress

**DANDRUFF**

**HOMEOPATHY** 

- But my real problem, the problem I came for is asthma
- I had the first asthmatic attack when I was 6 years old, on the first day of school.
- I was in the classroom, and I started to cough and after a while I had also difficulties in breathing

**ASTHMA**

**HOMEOPATHY** 

- They called my mother and I had to go home
- Immediately she brought me to the doctor and he said I was allergic to the chalk used on the blackboard at school
- I had a special permission and I never used the chalk but I often had problems with asthma and not just at school

**ASTHMA**

**HOMEOPATHY** 

- I have often noises coming from my lungs... like a purring cat...
- I cannot inhale deeply; when I'm doing I start to cough immediately
- May you describe your cough?
- It's a very short and dry cough but sometimes I also have some white mucus
- May you describe this mucus?
- It's like the white of the egg

**ASTHMA**

**HOMEOPATHY** 

- I also have some problems from a gynecological point of view
- I have to urinate often at night and when I urinate, I feel burning pain

**BLADDER**

**HOMEOPATHY** 

- That area is not the best area of my body I have also some vaginal discharge, quite often in the past
- I think I suffered from candida because I had some milky discharge
- It was very annoying, an acid and irritating sensation

**CANDIDA**

**HOMEOPATHY** 

I have not had any discharge for several years, but the vaginal dryness is very annoying

**VAGINAL DRYNESS**

**HOMEOPATHY** 

I'm happy I do not have any sexual intercourse anymore; it would have been impossible

**VAGINAL DRYNESS**

**HOMEOPATHY** 

- Another problem is back pain
- I have been suffering from it for at least 5 to 6 years now
- I asked her to give me the modalities but the only thing she could say was that when the back pain is severe, she has to lie down on the floor to get relief

**BACK**

**HOMEOPATHY** 

- At this point a question is compulsory!
- Have you ever suffered from headaches?
- Headaches?
- I don't remember if I had asthma first or headaches first however, I remember it from when I was a child and I had it at least until the end of high school

**HEADACHE**

**HOMEOPATHY** 

- I did not have it for many years; it has been coming back for three years and three days...
- 3 years and 3 days?
- How can you remember so precisely?
- Because 3 years and 3 days ago my husband died and since then my headache gives me no respite
- I get them at least 3 - 4 times a week and it's a continuous hammering all over my head, as if I had 5 brickworkers beating on my head

**HEADACHE**

**HOMEOPATHY** 

- My husband died from a stroke
- It was terrible for one week and then he passed away
- I stayed in the hospital almost 24 hours a day
- I was just going home 3 - 4 hours to sleep a bit and then back to the hospital

**GRIEF**

**HOMEOPATHY** 

- He is in my mind every day, every hour, every minute
- I'm always thinking about that week and thinking if I could do something, and the doctor could do something

**GRIEF**

**HOMEOPATHY** 

- How was your reaction to his death?
- I have never loved being with others but since then I have closed in on myself
- I see very few people, I prefer to be alone; it is as if I want to live my sadness

**GRIEF**

**HOMEOPATHY** 

- Maybe it's strange but being alone makes me feel better
- Some friends tell me that I have to go out, that I have to see people but every time I meet someone, I feel worse
- I understand that everyone tries to be nice to me, but I really can't stand these attitudes

**GRIEF**

**HOMEOPATHY** 

- I have always been a closed person, I have never talked to anyone about my life, I don't like it.
- Now excuse me but can we change the subject?

**GRIEF**

**HOMEOPATHY** 

- **Ok Madam**
- **Let's speak about the remedy you should take**
- **Just tell me one thing**
- **How is your energy? Do you never feel tired? Are you busy during the day?**
- **I'm never tired. I sleep just 5 hours a night and during the day I'm always very active**

**ENERGY**

**HOMEOPATHY** 

**LMK (50.000K)  
one dose**

**FIRST  
CONSULTATION  
JUNE 1999**

**HOMEOPATHY** 

- After 2 days I felt better, I had the sensation of being relaxed, less sad but it lasted just 2 – 3 days then everything went back exactly as before
- No other changes; from the physical point of view nothing changed

**FIRST FOLLOW UP  
AFTER 2 WEEKS**

**HOMEOPATHY** 

**LMK (50.000K)**  
**3 drops 2 times a day**

**FIRST FOLLOW UP  
AFTER 2 WEEKS**

**HOMEOPATHY** 

**I'm sorry doctor but I did not see any change nor on the mental level nor on the physical level**

**SECOND FOLLOW UP  
AFTER 4 WEEKS**

**HOMEOPATHY** 

**CMK (100.000K)**  
**3 drops 2 times a day**

**SECOND FOLLOW UP  
AFTER 4 WEEKS**

**HOMEOPATHY** 

- Since taking the new remedy I feel more and more tired, I sleep more but I am more tired than before
- Perhaps I have understood the reason: my daughter has a new job and I have to be with her son, my grandson
- I'll tell you the truth... maybe I'm not a good grandmother, but I do it because I have to, but if I could avoid it, I would avoid it...

**THIRD FOLLOW UP  
AFTER 6 WEEKS**

**HOMEOPATHY** 

- I have many other things to do; maybe I didn't tell you anything when we met but for some months, I have been helping disabled children who have great problems with their autonomy and I would rather be with them than with my grandson
- What do you feel when you are with these children?

**THIRD FOLLOW UP  
AFTER 6 WEEKS**

**HOMEOPATHY** 

- I don't feel anything in particular but someone has to help them... how do they help themselves?
- These children and their families have problems, they suffer, how do you feel when you are in front of someone who suffers?
- What do I feel? I don't feel anything in particular, I don't cry...

**THIRD FOLLOW UP  
AFTER 6 WEEKS**

**HOMEOPATHY** 

- I just know that I have to do something for them and then in these months they became my family...
- My psychologist says I'm replacing my husband with them, but she did not understand...
- No one can ever replace my husband!

**THIRD FOLLOW UP  
AFTER 6 WEEKS**

**HOMEOPATHY** 

**NEW REMEDY**  
**MK (1.000K)**  
**3 drops 2 times a day**

**THIRD FOLLOW UP  
AFTER 6 WEEKS**

**HOMEOPATHY** 

- I started the new remedy 2 weeks ago
- I needed some days to receive it
- After 2 days I had a new herpes and since yesterday my mouth is full of aphthae but it's strange because I do not feel almost any pain...
- Usually I have problems and I cannot eat, now I know I have them but almost painless...

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

- Headache is better
- I'm still suffering everyday from it but I cannot tell it's a pain now
- I feel a kind of stiffness in my head but no more that hammering pain I had before

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

- My back is feeling so good now
- I can tell you the pain was reduced at least 70%
- What about your respiration and cough?
- Respiration and cough did not change at all. I still have the same symptoms

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

- **What about your mood?**
- **I feel lighter; it's like I do not have anymore the duty to have my husband in my mind**
- **I did not forget him at all, but I feel that I'm accepting his death**
- **I'm not brooding in every moment of my day**

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

**MK (1.000K)**

**5 drops 2 times a day  
adding 2 drops every 3 days if  
respiratory problems will not be  
better**

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

- After 3 days I started to take 7 drops and my cough disappear almost completely
- Asthma is better 60%
- I had headache just 2 times in 2 weeks
- Back pain almost disappeared
- Mood is improving day by day

**FOLLOW UP  
AFTER 11 WEEKS**

**HOMEOPATHY** 

**MK (1.000K)**  
**7 drops 2 times a day**

**SECOND  
CONSULTATION  
AFTER 9 WEEKS**

**HOMEOPATHY** 

- **In 20 years she was always good**
- **All the physical symptoms were better and better**
- **From time to time, she was suffering from some backache but she always reacting in a short time with the remedy**

**1999 - 2019**

**HOMEOPATHY** 

- In 2019 she was hospitalized for Covid and remained in the hospital for almost one month
- She lost 20 kg. in one month
- I gave her 1LM potency starting from 1 drop 2 times a day and little by little she recovered
- In 3 months she had back more than 10 kg.
- I used from 1LM to 18LM

**1999 - 2019**

**HOMEOPATHY** 

- **The daughter and her GP convinced her to have Covid vaccination**
- **Some weeks after vaccination cough came back together with asthma**
- **She took again MK and XMK with some amelioration**

**2020**

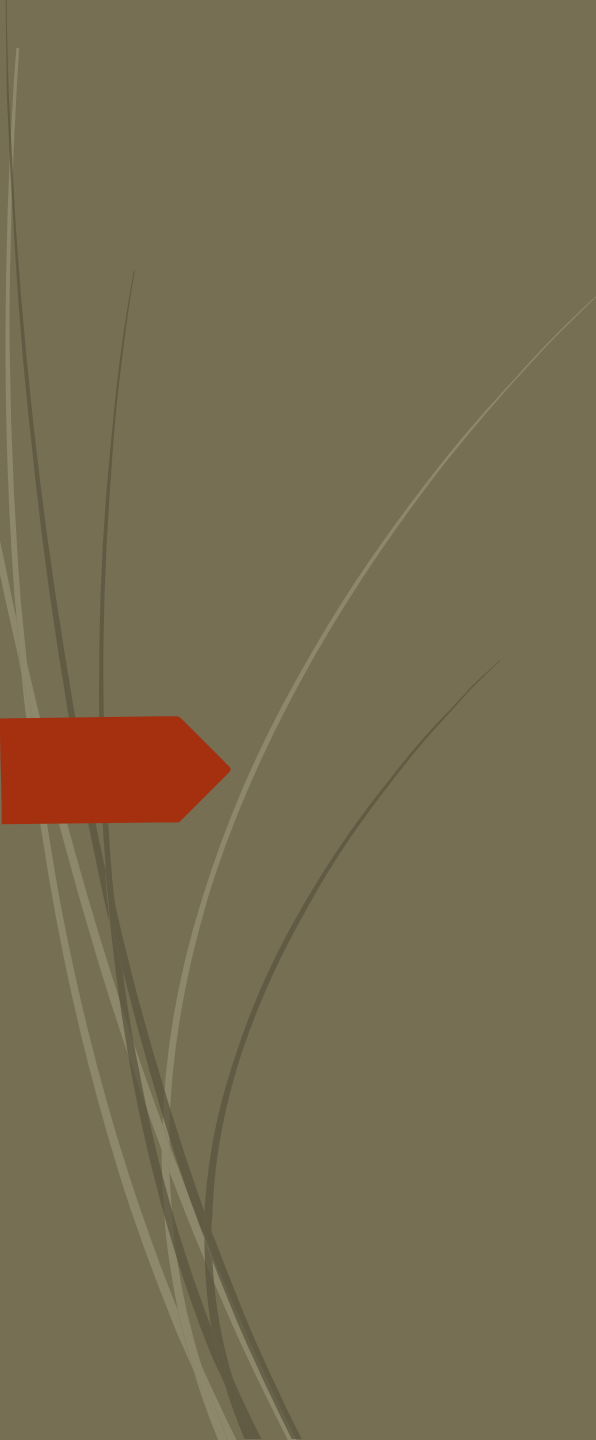

**HOMEOPATHY** 

- In 2021 she had another dose of vaccination
- After it she had another relapse of respiratory problems but she was better with 200K
- In winter 2021 she was found dead by her daughter in her bed
- She was 95 years old

**2021**

# Development

- Walking 12 months
- Speaking: 9 months
- Nursing: never breastfeed

Menarche: 14 yrs

- It was a stress for her.
- She felt herself not matured enough, her body was under-developed.
- She felt it was a significant change in her life and she could share it with no-one.

# Menses

She suffered from strong pain especially when she was young, it was cramp and she had to lie down.

She had pain in the lumbar region.

The menses was irregular.

Now she is in pre-menopausa.

- She suffered from chronic ear infection.
- Suffered from chronic sinusitis.
- Tonsillitis - surgery

# Mouth

She has herpetic eruption, since childhood  
sometimes every months

# Head

- I have headaches.
- Usually I wake up on headaches in the morning.

# Respiratory - system

She suffered from respiratory diseases:

- starting with irritation in the throat
- irritative, dry cough
- loosing of voice

# Stomach

10 years ago, it started with a sudden sickness when I ate, and since that time, when I am eating I feel a cramp or a constriction in the throat and I cannot swallow nor food neither drink.

Sometimes I have to vomit myself.

It is happening 3-4 times a year.

# Sleep

- When I am in stressed, I can not fall asleep immediately.
- Usually I need 15 min to fall asleep but when I am stressed or so anxious it takes 4-5 hours

# Food & Drinks

- Craving for salt, salty food
- Hot soup

# Character

- Suppressing anger:  
Very seldom I can express my anger.  
I am very sympathetic, especially for children and any injustice is happening with them, I am so angry.

# Character

- I am very empathetic.
- I can feel other people's emotions.
- Sufference, pain, grief that strick the people inside can touch me so deep.
- I cannot tolerate children abuse.
- Spirituality is important in my life.

# Character

- I am helping to people.
- I have no friends in general, my husband is my best friend.
- I disappointed in people many times in my life, and I felt that something broke inside me. I could not continue the friendship anymore. I placed them in another shelf.

# Character

- I like to stay alone.
- Too many people are making me tired.
- I have memory problems, many times some word are not coming into my mind.
- I always had problem in memorizing texts.

# Character

- I am very anxious. I was always anxious.
- I had too very severe burn-out in my life, at my age of 19 and 40.
- Many times I am waking up with the feeling of anxiety in my chest.

# Character

- I feel that my parents did not love me as I wanted.
- They did not take care of me as I wanted. I was alone with all my worries and anxieties.

# Remedy

1 MK 5 drops twice a day

# 1 month Follow - up

Herpes: did not occur.

Headache: is still there but maybe the pain is less intensive than it was before.

Voice: still hoarseness but maybe I can speak longer without any problem.

Eating: constriction did not happen

Mood: I am working on it as I am a coach to myself to

# Remedy

1MK 7 drops twice a day

## 2 months Follow -up

Herpes: happened but lasted less long and intense.

Headache: is better but still happen.

Voice: is the same as before

Eating: constriction did not happen

Mood: Maybe I am feeling calmer and less anxious

# Remedy

1MK 9 drops twice a day

# 4 months Follow - up

Herpes: in the last 2 month never happened

Headache: now it is more intense

Voice: maybe it is a little bit worse then before

Eating: I felt again but not with the need to vomit myself

Mood: I am ok, I am happy that I can help to people to get them through their sufference

# Remedy

10MK 5 drops twice a day

## 6 months Follow - up

Herpes: did not happen

Headache: much less

Voice: now it is better, I feel my voice is weak after a day, but during the day there is no hoarseness

Eating: did not happen

Mood: It was strange, because I expressed my anger towards my husband

# Remedy

10MK 5 drops twice a day

# 9 months Follow - up

Herpes: did not happen

Headache: very seldom

Voice: my voice is starting to get stronger

Eating: did not happen

Mood: I am calm and maybe I am putting everyone's suffering on my shoulder as I did before. Just now I realized how heavy backpack I was carrying.
