DRUGS

**DRUGS
IN
NATURE**

drug noun (MEDICINE)

any natural or artificially made chemical that is used as a medicine

drug noun (ILLEGAL SUBSTANCE)

any natural or artificially made chemical that is taken for pleasure, to improve someone's performance of an activity, or because a person cannot stop using it

A drug is any chemical substance that when consumed causes a change in an organism's physiology, including its psychology, if applicable.

Drugs are typically distinguished from food and other substances that provide nutritional support.

Consumption of drugs can be via inhalation, injection, smoking, ingestion, absorption via a patch on the skin, suppository, or dissolution under the tongue.

In **pharmacology**, a drug is a chemical substance, typically of known structure, which, when administered to a living organism, produces a biological effect.

a) A pharmaceutical drug, also called a medication or medicine, is a chemical substance used to treat, cure, prevent, or diagnose a disease or to promote well-being.

b) Psychoactive drugs are substances that affect the function of the central nervous system, altering perception, mood or consciousness. These drugs are divided into different groups like: stimulants, depressants, antidepressants, anxiolytics, antipsychotics, and hallucinogens.

Hallucinogens - psychedelics :

Some religions, particularly ethnic religions, are based completely on the use of certain drugs, known as entheogens, which are mostly hallucinogens,—psychedelics, dissociatives, or deliriant.

Smart drugs :

Nootropics, also commonly referred to as "smart drugs", are drugs that are claimed to improve human cognitive abilities. Nootropics are used to improve memory, concentration, thought, mood, and learning.

An increasingly used nootropic among students, also known as a study drug, is methylphenidate branded commonly as Ritalin and used for the treatment of attention deficit hyperactivity disorder (ADHD) and narcolepsy.

Design drugs:

An early example of what today would be labelled a 'designer drug' was LSD, which was synthesised from ergot.

Other examples include analogs of performance-enhancing drugs such as designer steroids taken to improve physical capabilities and these are sometimes used (legally or not) for this purpose, often by professional athletes.

These also called as “temporary class drugs “

Recreational drug use is the use of a drug (legal, controlled, or illegal) with the primary intention of altering the state of consciousness through alteration of the central nervous system in order to create positive emotions and feelings.

The hallucinogen LSD is a psychoactive drug commonly used as a recreational drug.

Ketamine is a drug used for anesthesia, and is also used as a recreational drug, both in powder and liquid form, for its hallucinogenic and dissociative effects.

11 MOST COMMONLY USED DRUGS

Caffeine

Alcohol

Tobacco, nicotine

Marijuana, cannabis

Prescription Drugs

Benzos (benzodiazepines - central nervous system depressants)

Cocaine

Stimulants (Ritalin, Adderall)

Hallucinogen Drugs (LSD, PCP, Peyote, Mescaline, Psilocybin mushrooms and

Ecstasy)

Heroin

Methamphetamine

Drug use continues to be high worldwide. In 2021,

1 in every 17 people aged 15–64

in the world had used a drug in the past 12 months. The estimated number of users grew from

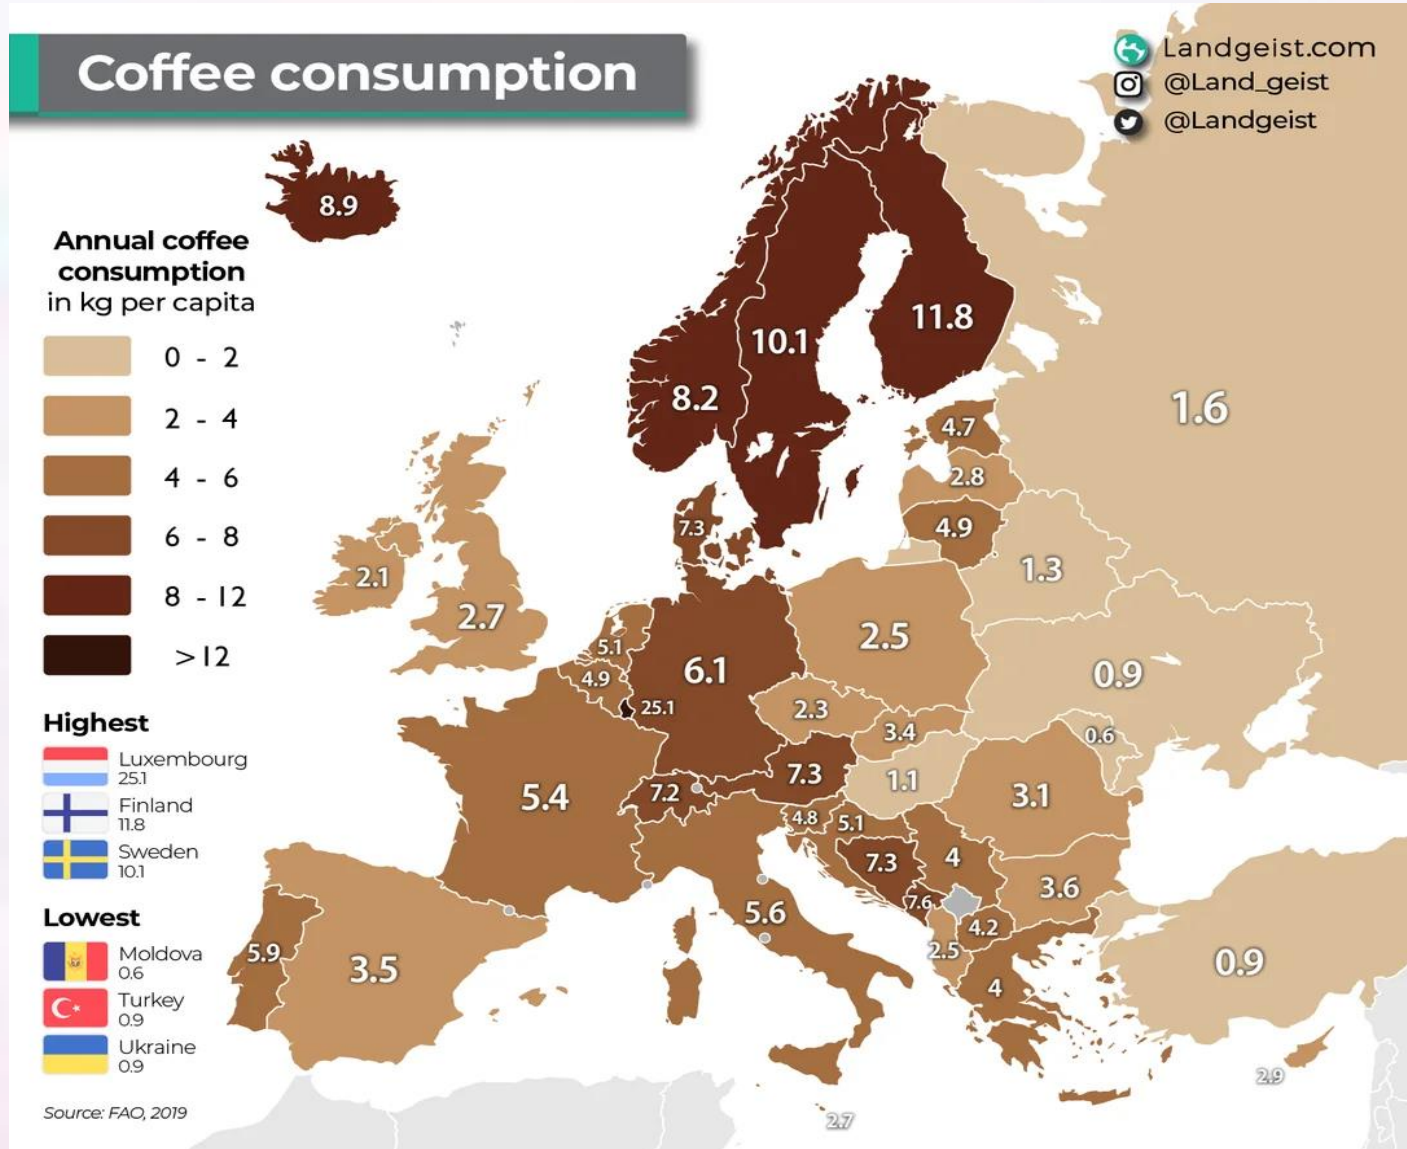

240 million in 2011 to 296 million in 2021

(5.8 per cent of the global population aged 15–64)

European Drug Report 2023

Around 83.4 million or 29% of adults (aged 15-64) in the EU are estimated to have used illegal drugs at least once in their lifetime.

BRUXISM - PSORIASIS - BACK PAIN
PSYCHOLOGICAL PROBLEMS - DRUGS ADDICTION

first consultation May 2022

- I have never had a real homeopathic consultation, but I have studied naturopathy
- As a student, I have been in contact with my teachers, and when there was a chance to talk, telling my own life story, I received some remedies:

**HOMEOPATHIC
REMEDIES**

HOMEOPATHY 

- Tuberculinum 1MK single dose
- Natrium carbonicum 200K single dose (for fissure on the lower lip that did not go away, only had it once)
- Medorrhinum 200K single dose
- Aurum metallicum 200K (15 years ago) and Aurum metallicum XMK single dose (4 years ago)

**HOMEOPATHIC
REMEDIES**

HOMEOPATHY 

- I took China for an intermittent fever
- In most cases I was prescribed remedies for emotional problems and sometimes I saw some improvement but never anything significant

**HOMEOPATHIC
REMEDIES**

HOMEOPATHY 

- I always did practical work then at the age of 24
I went to a naturopathy school
- Now I am an educator, and the focus of the courses
is on connecting with others
- I do training in schools for teachers or in companies

JOB

HOMEOPATHY 

- For the last 1.5 years we have been having meetings every night from 1.30 to 4.30 between practitioners
- In addition, 2 years ago I started studying Kabbalah

KABBALAH

HOMEOPATHY 

- Kabbalah or Qabalah (reception, tradition) is an esoteric method, discipline and school of thought in Jewish mysticism. A traditional Kabbalist is called a Mekubb (receiver)
- The definition of Kabbalah varies according to the tradition and aims of those following it, from its origin in medieval Judaism to its later adaptations in Western esotericism (Christian Kabbalah and Hermetic Qabalah)

KABBALAH

HOMEOPATHY 

- Jewish Kabbalah is a set of esoteric teachings meant to explain the relationship between the unchanging, eternal God - the mysterious Ein Sof ("The Infinite") - and the mortal, finite universe (God's creation)
- It forms the foundation of mystical religious interpretations within Judaism

KABBALAH

HOMEOPATHY 

Jewish Kabbalists originally developed their own transmission of sacred texts within the realm of Jewish tradition and often use classical Jewish scriptures to explain and demonstrate its mystical teachings

KABBALAH

HOMEOPATHY 

These teachings are held by Kabbalists to define the inner meaning of both the Hebrew Bible and traditional rabbinic literature and their formerly concealed transmitted dimension, as well as to explain the significance of Jewish religious observances

KABBALAH

HOMEOPATHY 

I have very strong interpersonal skills, although I don't like being with people so much, if I have to choose, I prefer to be alone and, especially lately, I select interpersonal relationships more

RELATIONSHIPS

HOMEOPATHY 

- I'm still living with my parents even though I move between north and south
- Since last year I go to the south every now and then to manage family land (olive groves and pigs)
- Last time I was there 10 months; I will return at the end of June

PARENTS

HOMEOPATHY 

- I have always tried to do a lot of things in my life because I have always been a bit obsessed with money
- I go from being anxious about money to being really worried about my future
- It may be that I have spent a lot of money in my life... but we can talk about that later...

MONEY

HOMEOPATHY 

- The real problem and what shocked me was the death of my maternal grandfather which happened when I was seven years old
- After my grandfather's death I tried to attach myself to my mother but she kind of rejected me and I think it all started from there

**MOTHER AND
GRANDFATHER**

HOMEOPATHY 

- I started having problems with my eyesight and had to wear glasses, I gained a lot of weight and started having epistaxis
- In the past I have been very sensitive to situations of reproach and rudeness from others, especially my mother with whom I have a very strong and complicated relationship

**MOTHER AND
GRANDFATHER**

HOMEOPATHY 

- I try to get away from her but then I always go back to her
- It's as if I am stuck, imprisoned...
- trapped, that's the right word is trapped...

MOTHER

HOMEOPATHY 

- I often find myself thinking back to my childhood, the good times and the bad times...
- What do you mean I find myself thinking back? Are they moments? Memories?
- They are more than memories... in those moments they become almost obsessions... I think and think and think...

MEMORIES

HOMEOPATHY 

- In the last period, self-confidence has improved, until two years ago the level was really low.
- I have lots of ideas, but I can't bring myself to complete projects, let's say very indecisive, so that I procrastinate decisions, and as if I can't overcome a barrier, I would like to turn my life around.
- I always have good intentions but then my behaviour is always opposite...

**SELF -
CONFIDENCE**

HOMEOPATHY 

- Then I have to say that my relationship with drugs didn't help me...
- In 2018 I developed an addiction to a chemical (alpha-Pyrrolidinohexiophenone) that is used on porn sets then I went to the drug addiction service to be cured
- I asked how it is taken and he replied that it is a substance that you smoke

DRUGS

HOMEOPATHY 

- I first used it after I met a guy I had a relationship with and then picked it up again after I ruptured my cruciate ligament in 2016 but in 2018 it was a real addiction
- I also had visual hallucinations in the abuse whereas I didn't get them from LSD
- I used everything but heroin

DRUGS

HOMEOPATHY 

- Started smoking marijuana as a boy (17); now I only smoke CBD because if I smoke THC I can feel it on my back and knees
- For several years I used cocaine; started at the age of 27 smoking cocaine
- I ask what kind of effects he had from these drugs

DRUGS

HOMEOPATHY 

- Actually, the drugs have done nothing but boost my feelings...
- In what sense?
- In the sense that many of the sensations I had when I did not use drugs and I have them in the periods when I do not use drugs, but they are lighter...

DRUGS

HOMEOPATHY 

- Explain it better please
- Well, first of all, the feeling of freedom, I always feel that...

DRUGS

HOMEOPATHY 

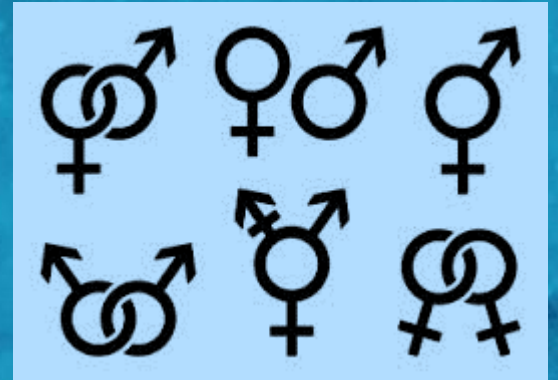

- Then we go from the more normal sensations of drug use, such as disorientation or the feeling of living in a different, unreal world, to heavier things like floating in space or out-of-body experiences, up to trance...
- but, again, these are all sensations that I have also experienced during periods of 'purification'...

DRUGS

HOMEOPATHY 

- I ask about sexual orientation and he replies that he is bisexual
- Sex has always been an important part of my life, in every way, alone, in a couple, in a group... However, I tend to live one-night relationships
- I never had long relationships...

SEX

HOMEOPATHY 

- I went back to religion
- I feel a very strong spiritual sense that has at times reached a kind of mysticism and now occupies a good part of my life...

RELIGION

HOMEOPATHY 

- Besides that, music has always been important to me, a kind of soundtrack to my life...
- I tend to be a lazy person, but when I hear music, I have to dance...
- What kind of music?
- Pink Floyd, Doors, Grateful dead, Psychedelic Porn Crumpets

MUSIC

HOMEOPATHY 

- Ok for Pink Floyd, Doors, Grateful dead, but who are the Psychedelic Porn Crumpets????
- It's a peculiar Australian band, on one hand it's kind of rock music, like Led Zeppelin, but they also have a lot of experimental electronic jazz.
- Well, for me this music is like a drug, I get lost, I disappear, I can have out-of-body experiences and then I lose my inhibitions...

MUSIC

HOMEOPATHY 

- I have crazy memories of sex, music and drugs...
- Sex & drugs & rock 'n roll??
- Let's say sex & drugs & rock...

MUSIC

HOMEOPATHY 

- Let's talk about physical symptoms for a while
- In the anamnesis he wrote that the development times were within the normal range
- I suffer from bruxism and I have to use the bite both at night and during the day because I have worn out my upper incisors and I have already had them redone

PHYSICAL SYMPTOMS

HOMEOPATHY 

Then there is a sensation of discomfort in my ears and in the temporomandibular joint:

I have constant tinnitus that increases if I press my teeth and then a sensation as if I always had cotton inside my ears

PHYSICAL SYMPTOMS

HOMEOPATHY 

- I had a lot of tonsillitis between the ages of 7 and 9
- In July 2021 I had a strong enlargement of the glands in my neck and then in November 2021 a 'dull' sore throat that only went away with antibiotics
- In April 2022 this sore throat came back with "dull" pain but even though I was taking the antibiotic it always remained this painful feeling

PHYSICAL SYMPTOMS

HOMEOPATHY 

- In August 2021 urinary infection, balanitis and urethral stenosis and in October I ejaculated blood after masturbation
- At 10 years of age herpes zoster (from the navel by making a sort of girdle reached the spine)
- Since 2019 major psoriasis on the left leg and left elbow

PHYSICAL SYMPTOMS

HOMEOPATHY 

- Then I had some bone problems....
- 8 years old compound malleolus fracture of the left leg
- 17 years old rupture of internal meniscus left knee (arthroscopy)
- 33 years old right knee problems (arthroscopy)
- 36 rupture of the left anterior cruciate (surgery)
- 37 rupture of the right meniscus (surgery)

PHYSICAL SYMPTOMS

HOMEOPATHY 

- Why all these problems?
- The knee problems occurred because I used to play hockey and it's normal for this type of sport

PHYSICAL SYMPTOMS

HOMEOPATHY 

- I also suffer from hypersensitivity in the cervical area; I easily get neck pain if there is a draft of air, I'm very sensitive... and then if I sit for a long time, I often have back pain
- As I said before, after the death of my grandfather, I began to suffer from epistaxis, with abundant nocturnal bleeding, weak nasal capillaries that at the age of 12 were cauterized

PHYSICAL SYMPTOMS

HOMEOPATHY 

- **FOOD AGGRAVATIONS:** yeast (bread, beer), Solanaceae (potatoes, peppers, tomatoes, aubergines)
- Bread and beer create bloating, Solanaceae slow down digestion
- Dairy products: I try not to eat all the time because they slow down digestion

FOOD & DRINKS

HOMEOPATHY 

- SMOKING: 20 cigarettes a day
- HIGH ALCOHOL: 1 - 2 times a week

HABITS

HOMEOPATHY 

- **SLEEPING:** for the last two years I stay awake a lot at night
- As a child I dreamt of drowning but in reality, it wasn't in the sea, it was like an indefinite becoming of matter

SLEEP

HOMEOPATHY 

- I ask if there are any other problems and he replies that another big problem of his, a bit since always, is memory
- I don't remember things and I especially don't remember dates
- I have to say that I have always had a bit of a problem with time... I often place events from the past at the wrong times

MEMORY

HOMEOPATHY

BOY

14 years old

ENURESIS - HEADACHE - HOARSENESS

first consultation October 2016

- The boy is suffering from nocturnal enuresis for about 4 years
- The problem occurred soon after he turned 10, around mid-September 4 years ago
- I ask the parents what happened in the days before but they reply that they have asked the boy many times but there seems to be no reason for it

ENURESIS

HOMEOPATHY 

- The problem started immediately in an intense way, presenting itself every night
- Now they wake the boy up every night around 2 o'clock and in this way they prevent the problem from occurring at least 5 times a week, but they have seen that if they don't call the boy every night enuresis occurs

ENURESIS

HOMEOPATHY 

- A frequent hoarseness is reported in the anamnesis, so I ask them to explain the problem
- The mother says: every morning when he gets up everything is normal but after a while when he is awake the problem starts, sometimes his voice doesn't come out at all...

**PHYSICAL
COMPLAINTS**

HOMEOPATHY 

- And then we realized that if he talks for a long time the problem gets worse
- I look at the boy's throat which shows no sign of inflammation, but I notice a bad tongue

**PHYSICAL
COMPLAINTS**

HOMEOPATHY 

- The mother immediately says that very often the tongue is cut
- Sometimes he complains about these cuts

**PHYSICAL
COMPLAINTS**

HOMEOPATHY 

- On examination a cut in the centre of the tongue is clearly visible
- I point this out and the mother reports that sometimes the tongue has lateral cuts but in 80% of the cases the cut is deep and central

**PHYSICAL
COMPLAINTS**

HOMEOPATHY 

- I ask how school is going and the boy says that he doesn't like studying much, studying tires him out and he often feels a bit confused after studying
- Also, I often get headaches, especially when reading; so, I realized that school is not for me...

HEADACHE

HOMEOPATHY 

I ask him to explain a bit about the headache symptoms and after several questions from which nothing in particular emerges, the boy reports that he realizes that the headache gets worse slowly but then at some point it disappears from one moment to the next

HEADACHE

HOMEOPATHY 

- I ask if there is anything he likes at school and he answers physical education
- I ask if he plays any sports, and he replies that he plays handball

SPORT

HOMEOPATHY 

At that point the mother intervenes saying that the boy is very good at sport and that the coach often stresses his speed, but he is fast at everything, he always does everything running...

MIND

HOMEOPATHY 

- I ask if he has any fears; initially he replies that he has no fears, then at my insistence he says:
- Yes, I do have a fear and it's strong, I'm afraid of burglars, I'm afraid they come into the house at night

MIND

HOMEOPATHY 

- The mother intervenes again, reiterating that he has been talking about burglars for a few years now.
- Yes, every now and then because I don't want to scare you, but I often think about it
- I ask if she has always had this fear
- No, when I was little child I was never afraid of thieves

MIND

HOMEOPATHY 

- On the first day of fifth grade, the teacher made us talk about our holidays and one of my classmates said that when they were on holiday, burglars came into the house and stole everything...
- I looked at the mother and asked if she knew about this story

MIND

HOMEOPATHY 

- Yes, he mentioned it a few times, but I didn't think he was scared
- I quickly do some calculations and I realize that the episode dates back to September 4 years earlier, when the enuresis started...
- At that point the mother looked at me and asked if the boy can go out or if I still need him

MIND

HOMEOPATHY 

- I realize she wants to tell me something without the boy hearing so I agree telling the boy that if I still need him I will call him back
- The boy greets me and asks if he can go to the bathroom; of course, I say yes and point the way to the bathroom but immediately he comes back into my office and says:

MIND

HOMEOPATHY 

- I forgot to tell you what I'm going to do when I grow up...
- Sure, tell me...
- I'm going to be a formula one driver, don't forget that...

FORMULA ONE

HOMEOPATHY 

- As soon as the boy comes out the mother says to me:
- About the bathroom, before I forget, I must tell you that my son is always in the bathroom washing his hands, this has been going on for a few years now...

WASHING HANDS

HOMEOPATHY 

- But my son's biggest problem is the lies he tells...
- I ask what kind of lies
- Well, meanwhile a thousand lies about school...

LIES

HOMEOPATHY 

- I answer that lies about school are the order of the day for many boys and that when I was in high school more than once I had not done my homework and
- I had caused my grandmother to die three times
- Once the house had caught fire and

LIES

HOMEOPATHY 

Another time there had been an accident and a car had entered the front door blocking the door and I had not been able to go and get the book I had left at a friend's house...

LIES

HOMEOPATHY 

- No Doctor, my son's lies are not only these...
- I have found out from neighbours that he says some incredible things...

LIES

HOMEOPATHY 

- Once he said that his uncle has a huge villa with three swimming pools, a billiard room and a huge gym
- Another time he told a friend of mine that we had bought a red Ferrari Testa Rossa and my friend immediately called me asking me if we had won the lottery
- Another time he said that we were going on holiday for two months to the Maldives and I could tell you even more...

LIES

HOMEOPATHY 

- I ask her to tell me more...
- What else can I tell you... always about the uncle...
- He told a teacher that his uncle had played football in first division and in the national team;
- And then last year he told that he had become the world chess champion at his age...

FIRST FOLLOW UP

(MAIL AFTER 2 WEEKS)

- 3 nights ago we did not wake him up and he had no enuresis so we did not wake him up also in the next nights and the enuresis disappeared
- Also the hoarseness is better, let's say at least 60%
- Perhaps he is washing less his hands

SECOND FOLLOW UP

5 drops 1 time a day before going to sleep

SECOND FOLLOW UP

(MAIL AFTER 1 WEEK)

- No more enuresis
- Hoarseness disappeared
- He's washing his hands as a normal boy, just a little bit more...
- He had a very deep crack in the tongue about 2 weeks ago, now it's better

FIRST FOLLOW UP
(CONSULTATION AFTER 2 MONTHS)

- I ask about headache and the boy tells that the headache is better
- At school I'm more focused and I'm getting some better results

FIRST FOLLOW UP
(CONSULTATION AFTER 2 MONTHS)

- After his consultation I had consultation with the mother too and I asked about the lies
- He is going on with lies but he is not telling anymore those incredible things

FIRST FOLLOW UP

(CONSULTATION AFTER 2 MONTHS)

LMK (50.000K)

5 drops 1 time a day before going to sleep

SECOND FOLLOW UP

(MAIL AFTER 1 WEEK)

- The boy went on taking the remedy for 4 months and all the symptoms disappeared
- Just from time to time some small crack on the tongue

FOLLOW UP

- After 6 months I decreased the frequency of administration of the remedy and he took the remedy just when he was needing
- He stopped the remedy in 2021 but the mother is still my patient and she speaks about the boy every time she is coming to me

FOLLOW UP

- He became a mechanic and his passion is racing go-karts
- I'm waiting to see him sitting in a formula one Ferrari...
