- I spend a lot of money on travel and golf
- “I have a bit of an obsession with golf, both in terms of research into clothing and clubs”
- How long have you been playing golf?
- It’s been 5 years now; I used to really enjoy jogging but then I had to stop because I was diagnosed with a foot problem, Morton’s neuroma

HOBBIES

- Explain to me...
- I started having pain in my left foot from one day to the next
- At first, I went to a homeopath who prescribed Arnica; after 3 days the pain suddenly disappeared
- After about 1 month again, from one moment to the next, the pain returned; I called the homeopath who told me to take Arnica again, but the pain did not go away

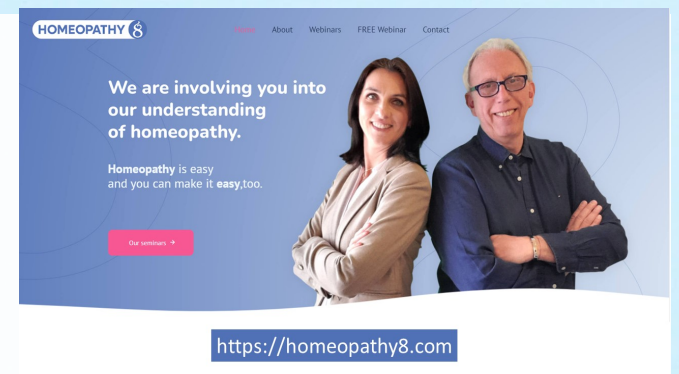

MORTON'S NEUROMA

- Then the homeopath gave me Hypericum but nothing...
- I went to the family doctor who suggested to have an x-ray first and then an ecography, but nothing...
- The pain went on for at least 4 months then one morning I woke up and it had disappeared
- By now I was quite desperate; I had taken different types of painkillers, but the pain was always there, less, but always there

Dr. Simon

<https://homeopathy8.com>

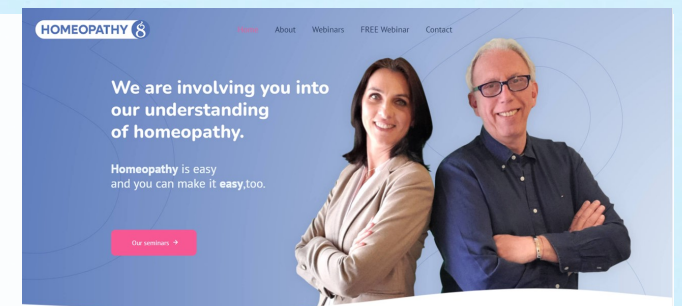

- **When I was stopping taking painkillers the pain was getting worse again so much so that at a certain point, I stopped taking them for good**
- **I then decided to go to an orthopedist who prescribed me an MRI which confirmed his idea; in fact, during the consultation he had already made the diagnosis of Morton's neuroma**

- This is a very good orthopedic and I remember that he explained Morton's neuroma to me well
- I remember that he told me about Muller's sign (actually it's Mulder's sign)

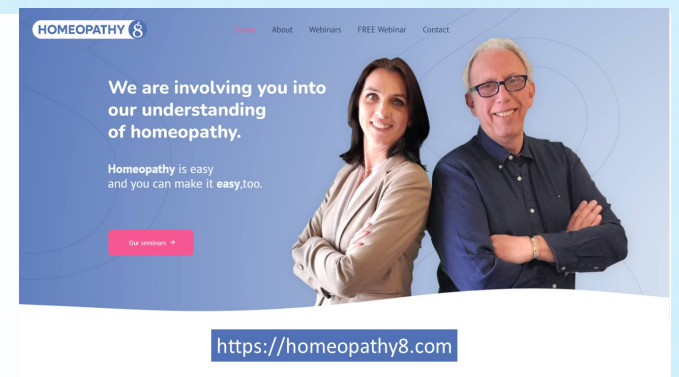

MORTON'S NEUROMA

<https://homeopathy8.com>

- He seemed very sure of himself, and it seemed to me that the diagnosis had been simple for him, so I asked him why my doctor had not mentioned this neuroma
- He replied that probably my doctor is not an orthopedist and that in any case I have characteristics that are different from normal
- He told me that Morton's neuroma does not generally follow these sudden appearances and disappearances and perhaps this had misled my doctor

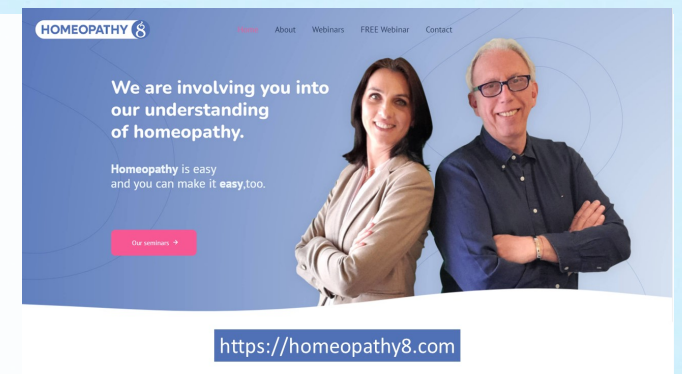

MORTON'S NEUROMA

- Feet have always been a bit of a problem for me; I even had two episodes of plantar fasciitis that lasted a long time
- I ask if he would do extreme sports like parachute or paragliding, and he says he doesn't even think about it...

STERILITY – RECURRENT COUGH

first consultation January 2020

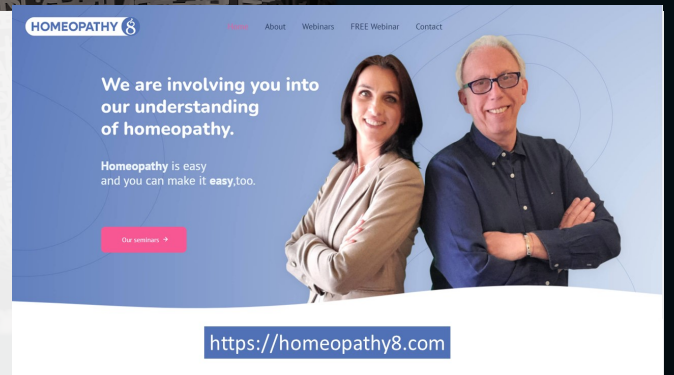

The reason I am here is related to a gynecological problem

I've had several consultations because I can't get pregnant,
and we've been trying various ways for almost 3 years now

Lately we have been trying IVF but without result and now
we are a little demoralized

However, I recently met a lady who was your patient a few years ago and she told me that she was in the same situation and after her treatment she was able to have two children so I hope you can take care of me too

I have to admit that I've always had a bit of a gynecological problem.

First of all, I've always had a cycle that did what it wanted--
early, late, I never know when I'm going to have my period

For 2 to 3 years it was more regular but now it will be at
least 10 years that I don't understand it anymore....

And then I often have discomfort feeling, sometimes infections

The gynecologist told me that I live a little with candida but other times I have had discomfort feeling without having candida, however I very discharge, very often .

What is the discharge like?

- Even with the 50MK, there have been no significant changes since the last report so I try to resume the case, but the patient is very anxious about the Corona virus situation, and I am unable to gather any other meaningful information despite almost two hours of consultation
- I asked her to take some time and send me an email trying to describe her character and some episodes in her life that she considers significant

Dear Doctor I apologize for being more in touch; it has been a difficult time

I took Covid twice and you can imagine my cough; I took several medications, but I managed...

During the summer vacation I decided that I would write to you and every day I tried to add something and now I have finished my “memoirs”...

I like to feel desired and it's like a drug... after all, I had mentioned to you that I have used drugs in the past and even now, in certain situations, a few sachets escape us...

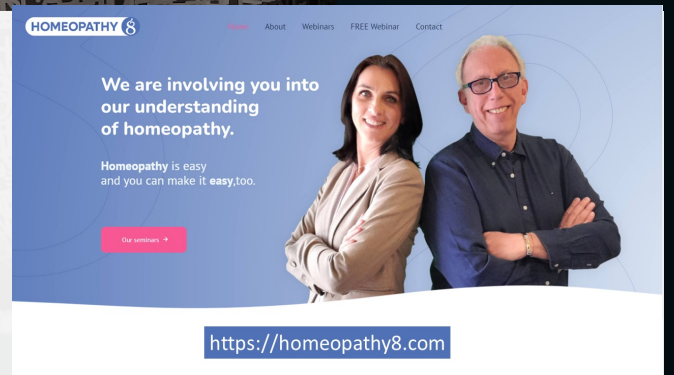

I've had many men and I don't think I'm going to stop now....

I like luxury, I like nice things and fortunately I can afford them...

I like jewelry and nice clothes, and I don't wait for someone to give them to me as a gift

I have always lived with “carpe diem” even though every now and then, suddenly, there is a thought that haunts me a little bit...

It's strange, I don't know where it comes from, but I think of hell and that I will end up in hell...

In those moments I have to find a distraction, something that engages me deeply to prevent that thought from becoming excessively tormenting...

I remember that one question you had asked me was what do others reproach me for.

I thought about it and it occurred to me that both my father and my partner often reproach me for having childish behaviors

They say I don't take responsibility, it doesn't seem like it to me however they say so

Maybe because I like to play and have fun and not take things too seriously

Another thing that may be interesting to you are the hobbies I have had in my life

Sports have always been there; I remember telling you about cycling but in the past I had a real attraction to snowboarding and wind surfing
